# **Special Issue**

# Exposure and Health Effects of Emerging Environmental Pollutants

## Message from the Guest Editor

The present Special Issue focuses on this public health concern by collecting, comparing and presenting leading studies and techniques that monitor exposure to emerging inorganic/organic chemical pollutants present in a wide range of ecosystems (including urban/suburban settings) and their effects on human health. This Special Issue will also provide an insight into cutting-edge decontamination techniques with a focus on risk characterisation and environmental recovery and restoration.

## **About the Journal**

## Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.
