Advance in Forensic Toxicology

Message from the Guest Editors

Forensic toxicology is a contractual section of applied toxicology that has relevant to medical knowledge and technology for litigious purposes. This field uniquely combines the scientific foundations of a wide range of biological and physical fields as well as the achievements of its methodology to obtain professional evidence in proceedings verifying compliance with specific legal standards. Forensic toxicology tries to verify the cases in which the causes of toxic or psychoactive substances usage have administrative or medico-legal consequences regarding both living and dead subjects. This interdisciplinary field extracted from clinical chemistry, medicine, and pharmacology involves the medical basis of analytical chemistry undertaken to confirm or exclude the presence of xenobiotics in the biological and non-biological material as well as the interpretation of the results of the analysis for legal purposes. Fields of forensic toxicology include:

- diagnosis of fatal intoxications in case of deliberate or accidental cases in criminal investigations;
- detection of the substances used in criminal activities as well as doping in sport; [...]

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
