

## Special Issue

# Assessing Novel Tobacco Products

### Message from the Guest Editor

Tobacco use remains a leading cause of preventable disease, disability, and death. In May 2020, the World Health Organization (WHO) reported that tobacco use was responsible for greater than 8 million annual deaths globally. The 2018 United States National Academies of Sciences, Engineering, and Medicine report, “The Public Health Consequences of E-cigarettes”, found substantial evidence that use of ENDS leads to dependence; however, there is only moderate evidence that the risk and severity of dependence are lower for ENDS than for combusted tobacco cigarettes. This *Toxics* Special Issue welcomes research that aims to characterize and understand novel tobacco products along with their related health effects. Research studying the general use of flavors in tobacco products is also of interest. This Special Issue aims to add to the science that will inform tobacco control policy and regulatory actions on emerging tobacco products such as ENDS, HTPs, and novel smokeless tobacco products.

## About the Journal

### Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
