

Special Issue

Collaborative Approaches to Mitigation of Snakebite Envenoming

Message from the Guest Editors

The aim of this Special Issue is to showcase studies that illustrate how collaboration between scientists from disparate fields (including, but not limited to, ecology, systematics, proteomics, genomics, clinical studies, social science and epidemiology) and non-scientists (including, but not limited to, field workers, health educators, NGOs, community health activists, policy makers and antivenom manufacturers) can lead to greater insights and progress towards reducing the global burden of snakebites than people working within their own separate fields. By doing so, we hope to encourage more kinds of these collaborations in the future.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Editor-in-Chief

Prof. Dr. Jay Fox

Department of Microbiology, University of Virginia, Charlottesville, VA,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
