

Special Issue

Selected Papers from the Lakeside Conference on Protein Toxins and Effectors 2022

Message from the Guest Editors

The International Conference, Lakeside Conference on Protein Toxins and Effectors (LakesidePTE) focuses on mechanistic studies on protein toxins and effectors. The next LakesidePTE Conference will be held on 2–4 October 2022 at the Abbey Resort in Lake Geneva, WI, USA.

The Organizing Committee is collaborating with *Toxins* to call for a Special Issue related to the research presented during LakesidePTE. We are inviting, in person or virtual, registrants of the conference to submit a manuscript or review that has not been previously published. We will accept research articles, short communications, and review articles. We anticipate that articles will contain new and important findings discussed during the conference including mechanistic aspects of protein toxin and effector action, the discovery of new protein toxins or effectors, and the study of protein toxin or effector action within cells, and will engage in interbacterial competition, using cellular microbiology approaches. All submissions will be peer-reviewed.

About the Journal

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Editor-in-Chief

Prof. Dr. Jay Fox

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
