Effects of Mycotoxins on Animals

Message from the Guest Editors

The effects and mechanisms of toxins from animals, microbes, plants and the environment on animal health have received widespread attention. Moreover, many researchers explored the mechanisms of toxins on animals. The aim and scope of this Issue include the effects of toxins on animal physiology, animal metabolism and animal health including intestine health, reproduction, and immunity; the relationship between toxins and animal nutrition; the toxicology of toxins; the mechanism of toxins on animals. Previously, there were many papers focused on the effects and toxicology of toxins have been published in the journal. The cutting-edge research may be the crossover between different disciplines. Here, this should be the toxins and other research on animals including animal nutrition, physiology, metabolism and so on. In this Special Issue, we are soliciting articles, reviews and communication papers focusing on the effects of toxins on animals.

About the Journal

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Editor-in-Chief

Prof. Dr. Jay Fox

USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
