

Special Issue

Selected Papers from MycoKey - MycoTWIN - ISM international conference

Message from the Guest Editors

This Special Issue is strongly oriented towards integrated, sustainable, and effective strategies for mycotoxin minimization worldwide, with particular attention to topics on advances in applied research in food and feed chains, including industrial actions. The comprehensive knowledge available at a global scale will be integrated with effective technical and management solutions for application at key points in the major affected food and feed chains.

We are anticipating contributions from all international scientific communities, industries/companies, and stakeholders that operate in the field of food safety, including effective solutions arising from their experiences and from national and international programs/projects as MycoKey and MyToolBox—two significant H2020 EU–China projects whose results will be presented at the MycoKey International Conference, Bari, Italy, November 2021.

Guest Editors

Dr. Antonio F. Logrieco

Prof. Jie Feng

Prof. Dr. Sarah De Saeger

About the Journal

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Editor-in-Chief

Prof. Dr. Jay Fox

USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
