

## Special Issue

# Identification, Toxicity and Insecticidal Protein of *Bacillus thuringiensis*

### Message from the Guest Editor

This Special Issue is primarily dedicated to exchanging research ideas and advancements on Bt insecticidal proteins. With the widespread application of Bt insecticides and insecticidal proteins in transgenic crops, while controlling pest outbreaks under the premise of ensuring ecological safety, there is an urgent need to explore new insecticidal proteins with higher activity, new insecticidal spectra, and no cross-resistance with currently widely used insecticidal proteins. We encourage researchers to publish the latest research progress and review articles here to exchange research ideas on Bt insecticidal proteins, for example, how to efficiently clone new genes, perform high-throughput expression and activity assays of insecticidal proteins, and utilize rational and irrational protein improvement technologies.

## About the Journal

### Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
