

Special Issue

Botulinum Toxin Therapy for Diseases in the Oral and Maxillofacial Regions

Message from the Guest Editor

The purpose of this Special Issue is to discuss the current achievements in botulinum toxin therapy for diseases of the oral and maxillofacial regions as well as future prospects from the perspective of experts in each field. I am pleased to request that you contribute original research or reviews concerning botulinum toxin therapy for oral and maxillofacial diseases. The research areas we will consider include neurology, otorhinolaryngology, neurosurgery, psychiatry, dermatology, oral and maxillofacial surgery, dentistry, and prosthodontics. I eagerly anticipate your contributions.

- botulinum toxin therapy
- movement disorders
- oromandibular dystonia
- trigeminal neuralgia
- orofacial pain
- temporomandibular disorders
- sialorrhea
- bruxism
- tremor
- tic

About the Journal

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Editor-in-Chief

Prof. Dr. Jay Fox

Department of Microbiology, University of Virginia, Charlottesville, VA,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
