

## Special Issue

# Natural Toxin Poisoning and Treatment

### Message from the Guest Editor

Poisonings with plants, mushrooms and animals are becoming increasingly frequent due to a returning to nature, increasing migrations and shifting habitats due to climate changes and globalization. The aim of the Special Issue “Natural Toxin Poisoning and Treatment” is to present *in vitro*, *in vivo* and clinical studies, including case series, of poisonings with plant, mushroom and animal toxins. We are aware that it is difficult to perform clinical studies of poisonings with natural toxins. This aggravating circumstance will be taken into account in good faith when evaluating manuscripts. Accordingly, rare and especially unusual poisonings will be especially welcome. New antivenoms and therapeutic procedures in natural toxin poisonings will be given high priority as well.

## About the Journal

### Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
