Special Issue

Selected Papers from the 2021 Venoms to Drugs Conference

Message from the Guest Editor

Dear colleagues, The 2021 Venoms to Drugs meeting will be held at the Daydream Island Resort, Queensland, 15–19 March, 2021. The conference will focus on venom peptides from cone snails, scorpions, spiders, snakes, plants, wasps and other species that continue to provide an immense reservoir of potent bioactive peptides targeting specific enzymes, ion channels, GPCRs and a wide range of receptors. As such, they represent major sources of lead compounds for both the development of pharmacological tools and novel drugs. This Special Issue aims to bring together active scholars and researchers to present their current scholarly work in venoms to drugs.

As the participants of this conference, we are pleased to offer you a 20% discount on the publishing fees, allowing you to include your work in this Special Issue before the submission deadline (30 September 2021).

Guest Editor

About the Journal

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Editor-in-Chief

Prof. Dr. Jay Fox

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
