

## Special Issue

# COVID-19 in Kidney Transplantation

### Message from the Guest Editors

Kidney transplant recipients may be at a uniquely increased risk of serious complications from COVID-19 compared to the general population because of their chronically immunosuppressed state. This Special Issue will describe the epidemiology of COVID-19 in kidney transplant recipients. Manifestations, appropriate management, and clinical outcomes based on the available literature. In addition, we should consider the impact of COVID-19 on kidney transplant activity and transplant volume.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Maurizio Salvadori

Department of Transplantation—Renal Unit, Careggi University Hospital,  
50139 Florence, Italy

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, and other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 38.9 days after submission; acceptance to publication is undertaken in 8.1 days (median values for papers published in this journal in the first half of 2025).

##### Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
