Special Issue

Zoonotic Parasitic Diseases: Emerging Issues and Problems

Message from the Guest Editors

The Special Issue will focus on zoonotic parasitic diseases, encouraging interdisciplinary research for a holistic understanding. Key topics include: Evolving Parasite-Host Dynamics: Studying genetic and ecological factors influencing changing patterns of host specificity and adaptation in zoonotic parasites. Climate Change and Vector-Borne Diseases: Examining the impact of climate change on vector distribution, abundance, and transmission of zoonotic parasitic diseases. Proposing mitigation strategies. One Health Approaches: Highlighting the interconnections between human, animal, and environmental health. Showcasing successful interventions for prevention and control of zoonotic parasitic diseases. Novel Diagnostics and Therapeutics: Showcasing advancements in diagnostic tools, therapies, drugs, and vaccines against zoonotic parasitic diseases, Surveillance and Early Warning Systems: Evaluating existing surveillance systems and suggesting innovative approaches for early detection and rapid response to emerging zoonotic parasitic diseases.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. John Frean

Pathologist, Parasitology Reference Lab, Centre for Emerging Zoonotic and Parasitic Diseases, National Institute for Communicable Diseases, University of the Witwatersrand, Johannesburg 2192, South Africa

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Informit, and other databases.

Journal Rank:

JCR - Q1 (Tropical Medicine) / CiteScore - Q2 (Public Health, Environmental and Occupational Health)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2025).
