

## Special Issue

# Global Perspectives on Kaposi's Sarcoma-Associated Herpesvirus Infection

### Message from the Guest Editors

Kaposi's sarcoma-associated herpesvirus (KSHV) presents a peculiar geographical epidemiology primarily burdening sub-Saharan Africa, areas in the Mediterranean, northwestern China and South American Amerindian populations, as well as subpopulations globally. This Special Issue, entitled "Global Perspectives on Kaposi's Sarcoma-Associated Herpesvirus Infection", aims to bring together clinical science, case studies, basic science, and literature reviews addressing advances in our understanding of KSHV epidemiology, infection dynamics and prevention, pathogenesis, presentation of KSHV-related diseases, and treatment strategies. We particularly seek and encourage submissions from globally diverse areas in which KSHV may be highly prevalent but where research profiles may not be well known.

### Guest Editors

Dr. Melissa Blumenthal

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. John Frean

Pathologist, Parasitology Reference Lab, Centre for Emerging Zoonotic and Parasitic Diseases, National Institute for Communicable Diseases, University of the Witwatersrand, Johannesburg 2192, South Africa

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Informit, and other databases.

##### Journal Rank:

JCR - Q1 (Tropical Medicine) / CiteScore - Q2 (Public Health, Environmental and Occupational Health)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2025).
