

## Special Issue

# Advances in Diagnosis, Epidemiology and Control on Soil-Transmitted Helminth (STH) Infections

### Message from the Guest Editors

This Special Issue focuses on recent advancements in the diagnosis, epidemiology and control on soil-transmitted helminth (STH) infections. Soil-transmitted helminth infections (STH) are the most common infections worldwide and affect more than a billion poor people around the world. There is a need to enhance the evidence-base for novel strategies for the effective diagnosis and control of STH infections including intervention studies into the long-term sustainability of MDA and efficacy studies of MDA regimens and delivery platforms; epidemiological investigation into socioeconomic and environmental drivers of transmission; mathematical modelling of competing strategies; epidemiology of STH benzimidazole resistance; new drug discovery; vaccine development; development of effective and accurate diagnostic methods; and finally studies into the pathophysiological mechanisms of morbidity including immunomodulation of autoimmune diseases.

### Guest Editors

Dr. Bin Zhan

Section of Pediatric Tropical Medicine, National School of Tropical Medicine, Baylor College of Medicine, Houston, Texas, USA

Dr. Ricardo J. Soares Magalhães

Queensland Alliance for One Health Sciences, School of Veterinary Science, The University of Queensland, Gatton, QLD 4343, Australia

### Deadline for manuscript submissions

closed (31 July 2020)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. John Frean

Pathologist, Parasitology Reference Lab, Centre for Emerging Zoonotic and Parasitic Diseases, National Institute for Communicable Diseases, University of the Witwatersrand, Johannesburg 2192, South Africa

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Informit, and other databases.

##### Journal Rank:

JCR - Q1 (Tropical Medicine) / CiteScore - Q2 (Public Health, Environmental and Occupational Health)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2025).
