Global Burden and Challenges of Melioidosis

Message from the Guest Editors

This Special Issue is dedicated to exploring and discussing the burden and challenges of melioidosis in each country, region or continent. We encourage the submission of contributions, in the following areas: (1) observed evidence of melioidosis, (2) current standards and availability of measures to diagnose, report, treat and prevent melioidosis, (3) current public awareness, awareness among healthcare providers, and actions in relation to melioidosis from Ministries of Health, (4) major findings, changes or achievements against melioidosis during the last five years, and (5) future challenges relating to melioidosis. We look forward to your useful contributions on this interesting and important topic.
