# AGB Stars—In Honor of Professor Maurizio Busso on the Occasion of His 70th Birthday

Guest Editor:

#### Dr. Sara Palmerini

1. Dipartimento di Fisica e Geologia, Università degli Studi di Perugia, Piazza dell'Università 1, 06123 Perugia, Italy 2. INFN-Sezione di Perugia, I-06123 Perugia, Italy

Deadline for manuscript submissions:

closed (5 December 2021)

## Message from the Guest Editor

Dear Colleagues,

We are organizing a special conference (The 13th Torino Workshop on AGB stars) to celebrate Prof. Maurzio Busso in the occasion of his retirement. He has spent his career in investigating these stars, and he is now recognized as one of the leading experts in the sector worldwide.

The workshop will be held in one year (late winter/spring, 2022) and it will be accompanied by the present publication, the purpose of which is to define the state of the art in the field of AGB stars.

AGB stars are among the most important sites of stellar nucleosynthesis and affect the production of s-only nuclei and of elements which are approximately 50% heavier than Fe. We therefore think that this topic will be of great interest to the readership of *Universe*.

#### Prof. Dr. Lorenzo Iorio

Ministero dell' Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari, Italy

## Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
