## Studying the Universe from Spain

Guest Editors:

**Prof. Dr. Susana Cebrian  
Guajardo**

Centro de Astropartículas y Física  
de Altas Energías (CAPA),  
Universidad de Zaragoza,  
Zaragoza, Spain

**Dr. María Martínez Pérez**

Fundación ARAID and Centro de  
Astropartículas y Física de Altas  
Energías (CAPA), Universidad de  
Zaragoza, Zaragoza, Spain

**Dr. Carlos Peña Garay**

Consorcio Laboratorio  
Subterráneo de Canfranc,  
Canfranc Estación, Aragón, Spain

Deadline for manuscript  
submissions:

**closed (30 November 2021)**

### Message from the Guest Editors

The Spanish community is highly active in many fields related to the study of the universe lying at the intersection of Cosmology, Astronomy, Astrophysics, Nuclear, Particle, and Astroparticle Physics. Spanish groups, usually as part of international collaborations, follow different research lines related to: neutrino physics (studying oscillations, double beta decay, the non-zero mass), high-energy cosmic rays and gamma-rays from different sources, dark matter (trying to detect WIMPs or axions and searching for evidences), gravitational waves and, in general, so-called multimessenger astronomy. Experiments and observatories (already running or in preparation) are in some cases placed in singular facilities located in Spain, while in other cases, they are developed in other countries all over the world.

This Special Issue is intended to provide an overview of the present status of this research carried out in Spain, focused on topics covered by the *Universe* journal. Reviews and original submissions on all of them are very welcome. We look forward to your contributions.

## Editor-in-Chief

### **Prof. Dr. Lorenzo Iorio**

Ministero dell' Istruzione e del  
Merito, Viale Unità di Italia 68,  
70125 Bari, Italy

## Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
