

Special Issue

Insights into the Magellanic Clouds: From Star Formation to Galactic Dynamics

Message from the Guest Editor

This Special Issue aims to gather original research and reviews that deepen our understanding of the Magellanic System and its role within the broader context of galaxy evolution. This topic fits naturally within the scope of *Universe*, touching on extragalactic astrophysics, stellar populations, galaxy interactions, and dark matter. We particularly encourage interdisciplinary and multi-wavelength approaches, as well as studies that connect the Magellanic Clouds to the evolution of dwarf galaxies and satellite systems in the Local Group and beyond. We welcome submissions that include, but are not limited to, star formation histories, chemical enrichment, gas dynamics, stellar and dark matter kinematics, the structure of tidal features, and numerical simulations. Synergies with large-scale surveys and missions such as Gaia, LSST, HST, and JWST are also highly encouraged.

Guest Editor

Dr. Noelia E. D. Noël

About the Journal

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio
Ministero dell' Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari,
Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
