

Special Issue

Astrophysics and Cosmology at High Z

Message from the Guest Editors

This Special Issue is devoted to debating the prospect of new observational data at high redshifts, thanks to the new generation of telescopes on Earth and in Space, that will explore the cosmos at distances close to current observational limits. The impact of these new data on the fields of Astrophysics and Cosmology is one of the main focuses of this Special Issue. This focus includes the consequences these impacts have on the many theoretical models proposed in the literature. Prof.

About the Journal

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio
Ministero dell' Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari,
Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
