## Universe: 5th Anniversary

### Message from the Guest Editor

This year, Universe marks its 5th year after its inception. As Editor-in-Chief who leads it since its birth, I'd say that, so far, it performed well in an overly saturated arena with several well established and renown journals. It is so because of the exceptional quality of its Advisory and Editorial Boards, the competence and relentless dedication of its Editorial Staff, and, of course, Your efforts and contributions as authors and reviewers.

- Cosmology, General Relativity and Gravitation (both theoretical and experimental),
- Field Theory,
- Foundations of Quantum Mechanics,
- Mathematical Physics,
- Nuclear and Particle Physics,
- Astrophysics and Astronomy

---

### Guest Editor

Prof. Dr. Lorenzo Iorio

Ministero dell' Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari, Italy

## About the Journal

### Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
