

Special Issue

Universe: Feature Papers 2024 – Compact Objects

Message from the Guest Editor

The aim of this Special Issue is to collect recent advances in the observational and theoretical astrophysics of white dwarfs, neutron stars, black holes and more speculative objects yet to be discovered such as quark stars or dark-matter-admixed neutron stars.

About the Journal

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief
