

Special Issue

Current Trends in Neutrino Oscillation Physics: A Phenomenological and Experimental Perspective

Message from the Guest Editors

The current landscape of neutrino oscillation physics is very intriguing. The aim of this Special Issue is to document the current trends and progress in neutrino oscillation physics from a phenomenological and experimental point of view. Therefore, in this Special Issue, we invite original or review articles in all areas of neutrino oscillation physics from the perspectives of phenomenology and experiments.

About the Journal

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio
Ministero dell' Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari,
Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
