

Special Issue

Quantum Aspects of the Universe

Message from the Guest Editors

Recently, the study of the quantum aspects of the universe has been experiencing a strong comeback. Several tools and techniques to study various quantum aspects of the universe are proving extremely significant and enlightening. The study of such issues explores various unknown cosmological, quantum gravity and quantum field theory implications and applications in our universe. This special edition of *Universe* is completely devoted to recent developments in quantum mechanical and field theoretic aspects of our universe, with a special focus on the quantum field theory aspects of cosmology.

Guest Editors

Dr. Sayantan Choudhury

About the Journal

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio
Ministero dell' Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari,
Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
