

Topical Collection

Women Physicists in Astrophysics, Cosmology and Particle Physics

Message from the Collection Editor

The aim of this Topical Collection is to highlight excellent contributions of women physicists in modern astrophysics, cosmology and particle physics and in the fruitful interplay between these domains. All fields in modern astrophysics and cosmology and their fruitful interplay are included—theory, observations, different methods, models, analytic studies, numerical simulations, as well as high energy astrophysics and black holes in all its mass ranges.

- Women physicists
- Astrophysics and cosmology
- Theory and observations
- Gravitation and black holes

About the Journal

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio

Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
