

Special Issue

***Universe*: Feature Papers 2024 –"Galaxies and Clusters"**

Message from the Guest Editor

A new era of our knowledge of galaxies and clusters is opening today thanks to the new space/ground telescopes and the large deep surveys. New methods of data analysis are also in progress to manage this large flux of information. This *Universe* special issue dedicated to "Galaxies and Clusters" aims to collect several research papers connected to such new observations of galaxies and clusters at all redshift as well as to the new invented methods used to reduce and analyze the data.

Guest Editor

Prof. Dr. Mauro D'Onofrio

About the Journal

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio
Ministero dell' Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari,
Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
