## Urban Agenda

### Message from the Collection Editors

The Urban Agenda is a strategic document, without normative character, and therefore of voluntary adherence. In accordance with the criteria established by the 2030 Agenda, the new United Nations Urban Agenda and the Urban Agenda for the European Union, the Urban Agenda pursues the achievement of sustainability in urban development policies. It also constitutes a working method and a process for all actors, public and private, that intervene in cities and that seek equitable, fair and sustainable development from their different fields of action. It is also considered as a frame of reference for urban areas that establishes a range of urban policies of a social, economic and environmental nature, which can be put into practice by any municipality in the rural or urban environment and by any city, regardless of its location and size, and that concern the entire territory. This Special Issue on the “Urban Agenda” will cover the following research areas:

- New technologies and developments.
- Smart cities, smart environment, smart rural.
- IoT and mobility.
- Urban planification.
- Sector coupling.
- Habits and social behaviors.
- Humanistic vision of citizens.
- etc.

## About the Journal

### Message from the Editor-in-Chief

*Urban Science* is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.
