

## Special Issue

# Intelligent Manufacturing Systems and Urban Eco Design

### Message from the Guest Editors

We encourage both researchers and practitioners to submit original research and review articles, in addition to case studies and critical perspectives on topics including, but not limited to:

- Intelligent manufacturing systems
- Smart manufacturing for smart cities
- Industry 4.0 and sustainable manufacturing systems
- Internet of Things (IoT) and smart manufacturing
- Digital twin-based manufacturing systems
- Green manufacturing and cleaner production
- Eco design
- Sustainable product design
- Artificial intelligence (AI) in manufacturing monitoring
- Cloud-based manufacturing
- Cyber-physical production systems
- Sensor implementation in smart manufacturing
- Smart factories integration in urban areas
- Integration of robotics in smart manufacturing

## About the Journal

### Message from the Editor-in-Chief

*Urban Science* is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.
