

Special Issue

Empowering Urban Resilience: Sustainable Smart Solutions and Advanced Technologies for Community-Centric Development

Message from the Guest Editors

The rapid pace of urbanization and the challenges posed by climate change necessitate innovative approaches to enhancing urban resilience. This Special Issue explores the intersection of sustainable smart solutions, advanced technologies, and community-centric development with the aim of empowering urban resilience. By focusing on the synergy between technological advancements, sustainable strategies, and community engagement, this issue sheds light on effective potential pathways toward building resilient and thriving cities. **Scope and Topics:** This Special Issue invites contributions that explore the multifaceted aspects of empowering urban resilience through sustainable smart solutions and advanced technologies within a community-centric framework. Topics include but are not limited to the following:

- **Smart Infrastructure Integration;**
- **Advanced Data Analytics for Urban Resilience;**
- **Community Engagement and Co-Creation;**
- **Climate-Responsive Urban Design;**
- **Governance and Policy Frameworks;**
- **Resilient Social Systems;**
- **Case Studies and Best Practices.**

About the Journal

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Luis Hernández-Callejo

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus Duques de Soria, 42004 Soria, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science) and other databases.

Journal Rank:

JCR - Q1 (Geography) / CiteScore - Q1 (Urban Studies)
