

Special Issue

Sustainable and Resilient Affordable Housing in Architecture Design and Urban Plans

Message from the Guest Editors

- This special issue aims to explore innovative and sustainable approaches to affordable housing projects and plans.
- Research areas may include (but not limited to) the following:
 - Integrated housing policies with a focus on environmental and social sustainability
 - Innovative and inclusive housing projects that promote resilience and reduce environmental impact
 - Publicness in social housing projects and plans with a focus on equity and environmental justice
 - Housing and urban regeneration with a focus on reducing the ecological footprint and promoting urban biodiversity
 - Sustainable approaches in housing re-typology with a focus on the circular economy and waste reduction
 - Participatory processes in social and public housing that promote environmental awareness and social responsibility
 - Public and private heritage reuse with a focus on resource conservation and reducing environmental impact
 - Implementation of Nature-Based Solutions (NBS) in social housing for climate change mitigation and adaptation.
 - Life Cycle Assessment (LCA) of materials and construction techniques in sustainable social housing.
 - etc...

About the Journal

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Luis Hernández-Callejo

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus Duques de Soria, 42004 Soria, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science) and other databases.

Journal Rank:

JCR - Q1 (Geography) / CiteScore - Q1 (Urban Studies)
