Special Issue

Sustainable Urban Futures Through Building Energy Efficiency: Integrating Innovations and Strategies

Message from the Guest Editor

This Special Issue, "Sustainable Urban Futures Through Building Energy Efficiency: Integrating Innovations and Strategies", convenes interdisciplinary research and practice to accelerate decarbonization, resilience, and affordability in cities. We focus on building energy efficiency as system-wide activity integrating technologies, operations, policy, finance, and human behavior at building, district, and grid scales. Integrating mitigation with adaptation and social equity, the issue aims to leverage innovation and transform it into replicable pathways for large-scale influence. **Focus:** Synergy of envelope, HVAC, heat pumps, passive design, storage, and renewables with urban microclimate, grid interaction, and occupant-centric controls. Strong emphasis on retrofits and scalable solutions closing the performance gap and yielding cobenefits in health, comfort, and equity. **Scope:** Central themes are industrialized and deep retrofits; digital twins and urban building energy modeling; gridinteractive efficient buildings and more...

About the Journal

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of "science" includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Luis Hernández-Callejo

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus Duques de Soria, 42004 Soria, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science) and other databases.

Journal Rank:

JCR - Q1 (Geography) / CiteScore - Q1 (Urban Studies)
