

Special Issue

Smart City Transportation and Electric Vehicles: Innovations for Sustainable Urban Mobility

Message from the Guest Editors

This Special Issue, entitled “Smart City Transportation and Electric Vehicles: Innovations for Sustainable Urban Mobility,” focuses on the transformative role of advanced transportation technologies and electric vehicles (EVs) in shaping the future of urban mobility. As cities worldwide grapple with challenges such as traffic congestion, air pollution, and climate change, smart transportation systems and the widespread adoption of EVs offer sustainable solutions that enhance urban efficiency, reduce environmental impact, and improve public health.

This Special Issue invites interdisciplinary research exploring how smart technologies, such as intelligent transportation systems (ITSs), the Internet of Things (IoT), artificial intelligence (AI), and big data, are revolutionizing urban transport networks. It also highlights the importance of EV infrastructure, renewable energy integration, and mobility-as-a-service (MaaS) in promoting cleaner, safer, and more accessible transportation options.

Guest Editors

Dr. Fatemeh Nasr Esfahani

School of Engineering, Lancaster University, Lancaster LA1 4YW, UK

Prof. Dr. Carrie M. Hall

Mechanical, Materials, and Aerospace Engineering Department, Illinois Institute of Technology, Chicago, IL, USA

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Luis Hernández-Callejo

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus Duques de Soria, 42004 Soria, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science) and other databases.

Journal Rank:

JCR - Q1 (Geography) / CiteScore - Q1 (Urban Studies)
