

Special Issue

Urban Landscapes Changes in Mediterranean Regions

Message from the Guest Editors

We invite you to submit your works for open access publication in this Special Issue of *Urban Science*, entitled “Urban landscapes Changes in Mediterranean Regions”. Contextually, this Special Issue will focus on the changes—i.e., social, economic, environmental, political, among many other factors and themes that could be catalysts for changes—occurring in the Mediterranean Territories and consequently be able to reshape and change those regional landscapes. In the last few decades, these urban landscapes have been subject to many changes due to many local, regional, and global events as well as to social shifts. In fact, these urban landscapes comprise all those events within them. Therefore, the study of urban landscapes allows us to assess the past, understand the present, and envision the future. Thus, this Special Issue will analyze these landscapes from different perspectives, aiming to define regional landscapes dynamics, challenges, and new trends. For more details, please visit:

About the Journal

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Luis Hernández-Callejo

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus Duques de Soria, 42004 Soria, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science) and other databases.

Journal Rank:

JCR - Q1 (Geography) / CiteScore - Q1 (Urban Studies)
