Deadline for manuscript
submissions:

closed (31 July 2023)

Message from the Guest Editors

To achieve a more extensive understanding of current scientific knowledge and trends in HPV vaccines implementation, this Special Issue is focused on the recent updates in this field. Based on your extensive knowledge and experience, we invite you to contribute with an original report, original observation, or review, to highlight the current situation related to (i) HPV vaccination coverage, (ii) attitudes towards HPV vaccination, (iii) HPV vaccination knowledge and awareness, (iv) HPV vaccines acceptance, (v) factors associated with the implementation of HPV vaccination programs locally and worldwide, (vi) effective instruments/interventions to improve the HPV vaccination public acceptance, (vii) impact of the COVID-19 pandemic on HPV vaccination.

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **PMC**, **Embase**, **CAPLus / SciFinder**, and **other databases**.

Journal Rank: JCR - Q2 (Medicine, Research and Experimental) / CiteScore - Q1 (Pharmacology (medical))
