Message from the Guest Editors

In this Special Issue, all papers, reviews, diagnostic methodologies able to shed new light on the mechanisms able to enhance SARS-CoV-2-specific strong and memory immune responses after vaccination are welcome. Additionally, all studies able to clarify the SARS-CoV-2 hybrid immunity which is the interrelationship between immune responses developed after a natural infection and vaccination are included.

Deadline for manuscript submissions:

20 August 2024

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.**

Journal Rank: JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))
