Deadline for manuscript submissions:
closed (31 July 2022)

Message from the Guest Editors

Dear Colleagues,

It would be interesting to include a special topic “vector borne diseases control”. In this issue would be include all the latest approaches that are being used to vector and vector borne diseases control. This issue could include mosquitoes, ticks, malaria, Lyme diseases, anaplasmosis, Crime-Congo virus, and it would include those scientific investigations that do not fit completely in other special issues.

Keywords:

- ticks
- mosquito
- vaccine
- control pathogen
- vector-borne pathogens control
- vector-borne diseases

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.**

Journal Rank: JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))
