

## Special Issue

# Vaccination Strategies for Global Public Health

### Message from the Guest Editors

We are pleased to invite you to submit research articles and review articles examining current global trends in vaccination for emerging infectious diseases, including (but not limited to) mosquito-borne diseases, COVID-19, and human monkeypox surrounding the following themes:

- Impact of health determinants on the success of vaccination programmes
- Implementation and prioritisation strategies of vaccination programmes in low-income countries;
- Global equitable access to vaccines and measures to support global stockpile for rapid deployment during outbreaks;
- The impact of emerging SARS-CoV-2 variants on vaccine efficacy, mortality, morbidity, and other clinical outcomes;
- Role of vaccination to control a pandemic and to contain the spread of infectious diseases.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X), founded in 2013, now has a firm history of publishing peer-reviewed, state-of-the-art research papers on vaccines and vaccination in the broadest sense. Areas covered include, but are not limited to, novel and emerging vaccine technologies, building on in-depth knowledge of what constitutes a protective immune response. These can be new vaccines for old diseases, or old vaccines for new diseases. Vaccines against cancer and autoimmune diseases explicitly are also within the scope of the journal. Because public opinion and even government policies towards vaccines and vaccination have changed, vaccine policy and public health issues are major concerns. Climate change will also have an impact on the spread of infectious diseases, and thus also on vaccine and vaccination policies worldwide.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /  
CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
