

## Special Issue

# Infectious Diseases, Epidemiology and Vaccination

### Message from the Guest Editors

Dear colleagues, We strongly believe that this model could be successfully replicated for many infectious diseases, and we emphasize the importance of the multidisciplinary and strategic collaborative effort in hazard identification; in the application of prevention and control measures in both occupational and public health settings; and in the control of appropriate use of antibiotics, screening, and active surveillance of infected subjects. Therefore, authors are invited to submit their latest research regarding emerging infectious agents and the latest developments in vaccines, vaccine technology, and vaccination practices. Additionally, we would like to dedicate a section of this Special Issue to hospital infections and major infective agents regarding healthcare workers.

### Guest Editors

Dr. Catalina Ciocan

Dr. Alessandro Godono

Dr. Marco Clari

### Deadline for manuscript submissions

closed (31 March 2024)

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /  
CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
