

Special Issue

Safety and Efficacy of the SARS-CoV-2 Vaccine in Cancer Patients

Message from the Guest Editor

Dear Colleagues, As guest editor, I am pleased to announce this Special Issue, entitled “Safety and Efficacy of SARS-CoV-2 Vaccine in Cancer Patients”. Studies related to the safety and efficacy of existing Covid-19 vaccines in cancer patients have not been widely conducted, and significant uncertainties remain about the safety of the vaccine and immunogenicity in this group. In light of this, the current issue will be devoted to discussing the opportunities and challenges related to vaccination in cancer patients.

Guest Editor

Dr. Arianna Pani

Toxicology Department of Oncology and Hemato-Oncology, University of Milan, Via Vanvitelli, 20133 Milan, Italy

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X), founded in 2013, now has a firm history of publishing peer-reviewed, state-of-the-art research papers on vaccines and vaccination in the broadest sense. Areas covered include, but are not limited to, novel and emerging vaccine technologies, building on in-depth knowledge of what constitutes a protective immune response. These can be new vaccines for old diseases, or old vaccines for new diseases. Vaccines against cancer and autoimmune diseases explicitly are also within the scope of the journal. Because public opinion and even government policies towards vaccines and vaccination have changed, vaccine policy and public health issues are major concerns. Climate change will also have an impact on the spread of infectious diseases, and thus also on vaccine and vaccination policies worldwide.

Editor-in-Chief

Roosevelt, 4331 CB Middelburg, The Netherlands

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
