

## Special Issue

# The Role of Vaccination on Public Health and Epidemiology

### Message from the Guest Editors

Vaccination remains one of the most effective public health interventions, preventing millions of deaths annually and reducing the burden of infectious diseases worldwide. This Special Issue seeks to compile innovative research and critical discussions on the impact of vaccination strategies across diverse populations and health systems. We invite original research articles and reviews on a wide range of topics that may include topics on the following: Effectiveness and Impact of Vaccination:

- Evaluation of global or regional immunization; epidemiology; long-term immunity and strategies for booster vaccinations.

Vaccine-Preventable Diseases and Epidemiological Trends:

- Aspects of surveillance of vaccine-preventable diseases; emerging and re-emerging infectious threats.

Features Associated with Vaccination and Hesitancy:

- Social determinants, information, and vaccine attributes that may affect vaccination.

Technological Advances in Vaccination:

- Innovations in development and delivery; advances in immunization for high-risk populations.

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /  
CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
