The Effectiveness of Influenza Vaccine

Message from the Guest Editors

Influenza vaccines reduce the disease burden by lowering the risk of infection, severe illness, and complications. Their effectiveness can vary each year due to several factors, including changes in the virus, the selection of vaccine strains, age groups, and individual immune responses. Ongoing research aims to improve vaccine formulations and develop influenza vaccines that offer more robust and longer-lasting protection. Research is also critical for evidence-based decision-making in public health and is fundamental to maintaining progress and trust in immunization programs. This Special Issue will address all aspects of influenza vaccine effectiveness.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,
University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
