

## Topical Collection

# Topic Advisory Panel Members' Collection Series: Immunization and Vaccines for Infectious Diseases

### Message from the Collection Editors

Our Topical Collection will be a "Topic Advisory Panel Collection" that will cover all the topics relevant to immunization for infectious diseases. Human history has faced several pandemic threats, including influenza, SARS2, and COVID-19. The big challenge in responding to pandemic diseases is that vaccines may not exist, or existing vaccines may not be effective against them. Therefore, this Special Issue will be an ideal forum where scientists can share their latest research findings on immunization and vaccines related to infectious diseases, particularly Influenza, SARS-CoV-2, HIV, and tuberculosis. In this Special Issue, original research articles, case studies, editorials, and reviews are welcome. We look forward to receiving your manuscript.

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

---

### Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,  
University of Georgia, Athens, GA 30602-7387, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /  
CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
