# **Special Issue**

# Animal Infectious Diseases and Vaccinology in One Health

# Message from the Guest Editors

Many infectious diseases in animals cause significant damage to humankind. Exploring traditional and new solutions to mitigate these impacts is crucial. One approach involves the correct use of commercial vaccines and the implementation of new or autogenous vaccines. Additionally, where feasible, strategies can be developed to study and control diseases through understanding environmental factors and the interconnectedness of public and animal health, a concept known as "One Health". These strategies can be valuable for various stakeholders in managing different infectious diseases. Original research articles and reviews are both welcome in this Special Issue.

# **About the Journal**

# Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

#### Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine, University of Georgia, Athens, GA 30602-7387, USA

#### **Author Benefits**

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) / CiteScore - Q1 (Pharmacology (medical))

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
