

Special Issue

Strategies to Enhance Vaccine Uptake and Immunization Among Underserved Populations/Vulnerable Groups

Message from the Guest Editor

This Special Issue focuses on strategies to increase vaccination rates among vulnerable populations. We invite submissions investigating the complex factors contributing to vaccine hesitancy in underserved groups and the effectiveness of targeted intervention strategies. Research that addresses interventions aimed at underserved groups is also highly encouraged. This Special Issue aspires to equip public health professionals, policymakers, and healthcare providers with actionable approaches to enhance vaccine acceptance and immunization rates among populations most impacted by health disparities.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,
University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
