

## Special Issue

# Virus Neutralizing and Enhancing Antibodies

### Message from the Guest Editor

This Special Issue of *Vaccines* aims at addressing the unresolved key issues that hamper our understanding of the interactions between viruses and antibodies. The new presented studies will shed light on the multifaceted biological role that antibodies play during the course of virus infections. Both original research and review articles are welcome. Potential topics include, but are not limited to:

- Antigenic evolution and immunity to virus;
- Antibody and human cellular immune cell responses;
- Broadly cross-reactive and universal immunity to virus;
- Antigens and antibody in pathogenesis of viral infections;
- Dynamics of the antibody response during viral infections.
- We look forward to receiving your interested contribution.

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

---

### Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,  
University of Georgia, Athens, GA 30602-7387, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /  
CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
