

Special Issue

Advance Public Health Through Vaccination

Message from the Guest Editors

Global health is continuously changing; thus, we are expecting to face various challenges in the form of epidemics and pandemics. Vaccines play an important role in mitigating these challenges. The worldwide effort to vaccinate people has demonstrated how immunization can prevent serious consequences, save lives, and protect communities. This Special Issue aims to investigate the evolving landscape of vaccination and explore solutions to achieve better vaccine uptake. We welcome original research, perspectives, and reviews that examine the latest advances in public health vaccination strategies, the role of vaccines in global health security, and ways to increase vaccination rates in vulnerable populations.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ger Rijkers

Department of Health, Cognition and Behavior, University College

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
