Special Issue

Vaccine Evaluation Methods and Studies

Message from the Guest Editors

The goal of the Special Issue "Vaccine Evaluation Methods and Studies" is to present technological and conceptual advances in fundamental vaccine development. This Special Issue invites contributions in the areas of vaccine development and testing against well-known, as well as emerging, pathogens. We welcome reviews and research articles on the evaluation of viral and bacterial vaccines using quantitative antibody assays, functional antibody assays, cellular immunity assays, protective immunity assays, and pathogen neutralizing assays. We also welcome articles introducing new and high-tech assays to replace old methods of vaccine evaluation. All types of articles. including original research, method articles, reports, and reviews are accepted for publication in this journal to encourage and disseminate your work.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine, University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) / CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
