

Special Issue

Elucidating the Protein Networks Operating during the Entry of Mosquito-Transmitted Viruses

Message from the Guest Editors

We are co-editing a Special Issue titled “Elucidating the Protein Networks Operating during the Entry of Mosquito-Transmitted Viruses” within the journal *Vaccines*, focused on uncovering the entry and pathogenesis of mosquito-transmitted viruses from the perspective of virus–host protein interactions. We welcome the submission of original research articles, brief research reports, reviews, mini reviews, methods, corrections, hypotheses and theories, and perspectives. Potential topics include, but are not limited to, the following:

- viral infection and entry;
- protein networks operating during mosquito-transmitted viruses infection;
- virus–host interactions and molecular mechanism of viral entry and pathogenesis.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the second half of 2024).
