

## Special Issue

# Cancer Immune Research and Therapy

### Message from the Guest Editors

Dear colleagues, This issue plans to focus on all the aspects involved in cancer immunotherapies with promising agents and approaches that are characterized as ideal candidates against cancer. In this Special Issue, original research articles and reviews are welcome. Potential topics include but are not limited to:

- Promising phytochemicals against cancers;
- Immunomodulatory response;
- Therapeutic strategies;
- Mechanisms underlying immunological changes;
- Adverse effects of phytochemicals;
- Identification of cancer prognostic biomarkers;
- Combinatorial strategies;
- Future perspectives for phytochemicals.

---

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X), founded in 2013, now has a firm history of publishing peer-reviewed, state-of-the-art research papers on vaccines and vaccination in the broadest sense. Areas covered include, but are not limited to, novel and emerging vaccine technologies, building on in-depth knowledge of what constitutes a protective immune response. These can be new vaccines for old diseases, or old vaccines for new diseases. Vaccines against cancer and autoimmune diseases explicitly are also within the scope of the journal. Because public opinion and even government policies towards vaccines and vaccination have changed, vaccine policy and public health issues are major concerns. Climate change will also have an impact on the spread of infectious diseases, and thus also on vaccine and vaccination policies worldwide.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /  
CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
