Special Issue

Influenza Viruses Epidemiology and Vaccination: State-of-the-Art Research in Europe

Message from the Guest Editor

This Special Issue is focused on the design and implementation of suitable integrated systems of surveillance and of differential laboratory diagnosis that are, therefore, of crucial importance in the early identification of health emergencies, in order to enable the prompt containment of infections and coinfections in the population and facilitate the activation of adequate preventive strategies (including vaccination programs). Based on your extensive knowledge and experience, we invite you to contribute with original report, or review on influenza vaccines, other vaccines specifically designed for at-risk categories, on the prevention strategies of other future possible pandemics, and on epidemiological and virological influenza surveillance.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine, University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) / CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
